MEMORANDUM FOR: Assistant Director for Research and Reports

SUBJECT: Proposed Revision of 'Trends in Economic Growth' Report

1. I have talked to Dr. Charles Sheldon on the phone concerning the Agency's interest in keeping in touch with him during his work on the revision of the 'Trends in Economic Growth' report. He had already heard that we were interested in assisting wherever possible, and he fully intends to get in touch with us as his work proceeds.

2. I told him that there was not any point in my serving as a conduit for any further contacts on this matter, and he agreed that he would call [] as soon as he is in a position to get together with him. He indicated it would be a little while before he could do this because he is now working on a rush job on a different matter.

3. Unless I hear further from you, I will take no further action in this matter, although I would appreciate being advised from time to time as to how the project is proceeding.
